Savannah Aviation is giving back to the pilots who've given us so much this past year!

It's been an unbelievable year of growth for Savannah Aviation and our accomplishments could not have been made without the support of our customers who chose us above other flight schools to fulfill their lifelong dreams of flight.

As a special thank you for voting Savannah Aviation the "Best Flight School" two years running in the Savannah Magazine "Best of Savannah" readers' poll, we're giving back to our fans who've made us the go to choice for flight training.

Whether you're a current Savannah Aviation customer, new to the area, or affiliated with a different flight school...starting today until December 31st, pilots and students can come fly two of our aircraft, N7321B and N717RC, for the low cost of \$75 an hour (including fuel)!

Call us at (912) 964-1022 for details or click the links below for more information about our ever growing fleet of aircraft and flight training programs available at Savannah Aviation.

Stay tuned for more deals to come!!
